Space Clearing: Types, Benefits and What to Expect

Nigel & Maggie Percy

When you get your space cleared, you will be creating harmonious, balanced space to enhance health, finances, relationships, career and happiness. We clear residential and business properties in person and long distance. Results begin immediately, but can take up to 72 hours to complete. The most common experiences of having your space cleared include, but are not limited to:

- An increased feeling of calm, peace and tranquility
- The ability to focus and concentrate better
- Finding it easier to complete projects or jobs you have been putting off
- Reduction or elimination of physical symptoms
- Better sleep; especially no nightmares
- Children and animals behave better
- Fewer fights and less irritation
- Finances improve
- Emotions are more balanced and positive

In addition to the above results, home or retail businesses may experience:

- Lower absenteeism
- Fewer accidents and equipment breakdowns
- Better communication and morale
- Improved sales
- Better employee performance
- Increased customer satisfaction

Each person is unique, and so it is impossible to predict exactly which benefits you will experience.

Free Consultation

We offer a free, one-time, no-obligation evaluation of your property.

How to Get Even Better Results from Your One-Off Space Clearing

- Help us identify key symptoms of noxious energy by giving us details prior to the clearing. For example: lack of focus, poor sleep, headaches, cancer, bad behavior in kids and pets, anger
- Look for any differences in your space and share them with us. Give us feedback:
 - ✓ Within 24 hours of the clearing
 - ✓ And again a few days later
- If you have any questions, contact us in a timely manner.
- Contact us if you think you may still have any noxious energies lingering. We will work with you for ten days or so after the clearing to make your space the best it can be at no extra charge.

Get Extra Benefits from our Space Clearing Program

While a single clearing will eliminate all the noxious energies active at the time, long term maintenance is required to keep a place healthy and happy. Our annual space clearing program makes this easy and affordable. You get a custom-made space clearing device and free clearings all year long. Ask for details of our annual program when you get your free consultation. Our program offers the highest level of service you can get anywhere.

The Professional Edge: Space Clearing Isn't for Amateurs

We are unique in being a husband and wife team of professional experts with over 30 combined years of experience clearing space the world over. We utilize energy techniques based on science, ancient knowledge and our vast experience in clearing homes and properties in person and long distance. Maggie retired as a Senior Scientist at NASA and Nigel's background is as a college-level educator. By joining science and rational thought with powerful intuitive methods, we have created a more effective way of resolving problems for our clients through our unique 'Whole Brain' approach. We are here to help you balance your environment.

Sixth Sense Consulting

Sixth Sense Consulting offers metaphysical consulting services globally. Our specialties are space clearing, professional dowsing, personal growth and education.

Testimonials

"It is truly amazing how completely the atmosphere-feeling in my home shifts from deeply palpable dark to radiant Light when I contact you. Slept much better, no strange noises, everything lighter, kitties happier... All is Peace."

K.C. , Arizona

"My son has summed it up in one statement: 'You have taken the creepy out'. I'm also feeling as though you have breathed new life into the place... The house feels calmer, too...."

S.D., Virginia

"Since I enlisted into this program, my apartment is balanced, good energies all around, my plants and pets are thriving and people enjoy being home again. Before...some of my pets died for no obvious reason; there was a room no one dared sleep in...it was a creepy room. After the first clearing of the space, the room became totally normal and nice to stay in. Your quick response (on the annual program) gives me the psychological support that there is someone that takes care of these things, and I am not alone, so I am no longer worried as in the past."

Y.H., Israel

"The clearing you did at the workplace...is showing results already. A problem that has been plaguing everyone there for weeks now has had a curious change of events. Yesterday, my husband had a brilliant idea that may be the answer to their problems."

R.H., Ontario, Canada

"My 18-yr-old thoroughbred has been lame on and off for about a year and a half. Since you worked on his paddock, he has been free of pain and working happily. I can't thank you enough for the calm and willing attitude that your work has helped my competition and lesson horses to achieve."

W.R., Montana
